Atrium Announces the Sale of Extruders Division

DALLAS – Atrium Corporation, one of the largest manufacturers of vinyl and aluminum windows and patio doors in North America has announced the sale of its aluminum extrusion business, Extruders, located in Wylie, TX to Tower Extrusions, LTD, an industry leader in custom extrusions since 1977 based in Olney, TX.

Mark McClelland, Managing Partner of Tower, stated that, “Extruders has a long and successful history of extruding building and construction profiles for a national customer base and is an ideal geographic expansion and strategic fit for Tower Extrusions”. Stan Guess, Tower’s VP of Sales and Marketing, stated “by acquiring the Extruders competencies we enhance our capability to serve our long term customers as well as new customers along with adding paint to Tower’s current capabilities of anodizing and fabricating.”

Scott St. Clair, CEO of Atrium Corporation added “We sincerely thank each of the employees at Extruders for their long-term support. We believe the new ownership group will take the business to new heights while allowing Atrium to focus on markets and customers that are the core of our long-term strategy.”

About Tower Extrusions, LTD

Tower Extrusions LTD is a privately held company established in 1977 and is a leading supplier of custom aluminum extrusions, fabrication and finishing services. The company serves the building and construction, transportation, consumer durable, electrical, machinery, and distribution markets. Tower has over 12 acres of under-roof manufacturing facilities including a state of the art cast house, 5 extrusion presses, one of the largest production anodizing lines in the United States, and 144,000 square feet of in-house fabrication.
